

Monitoring training effectiveness (1 of 2)

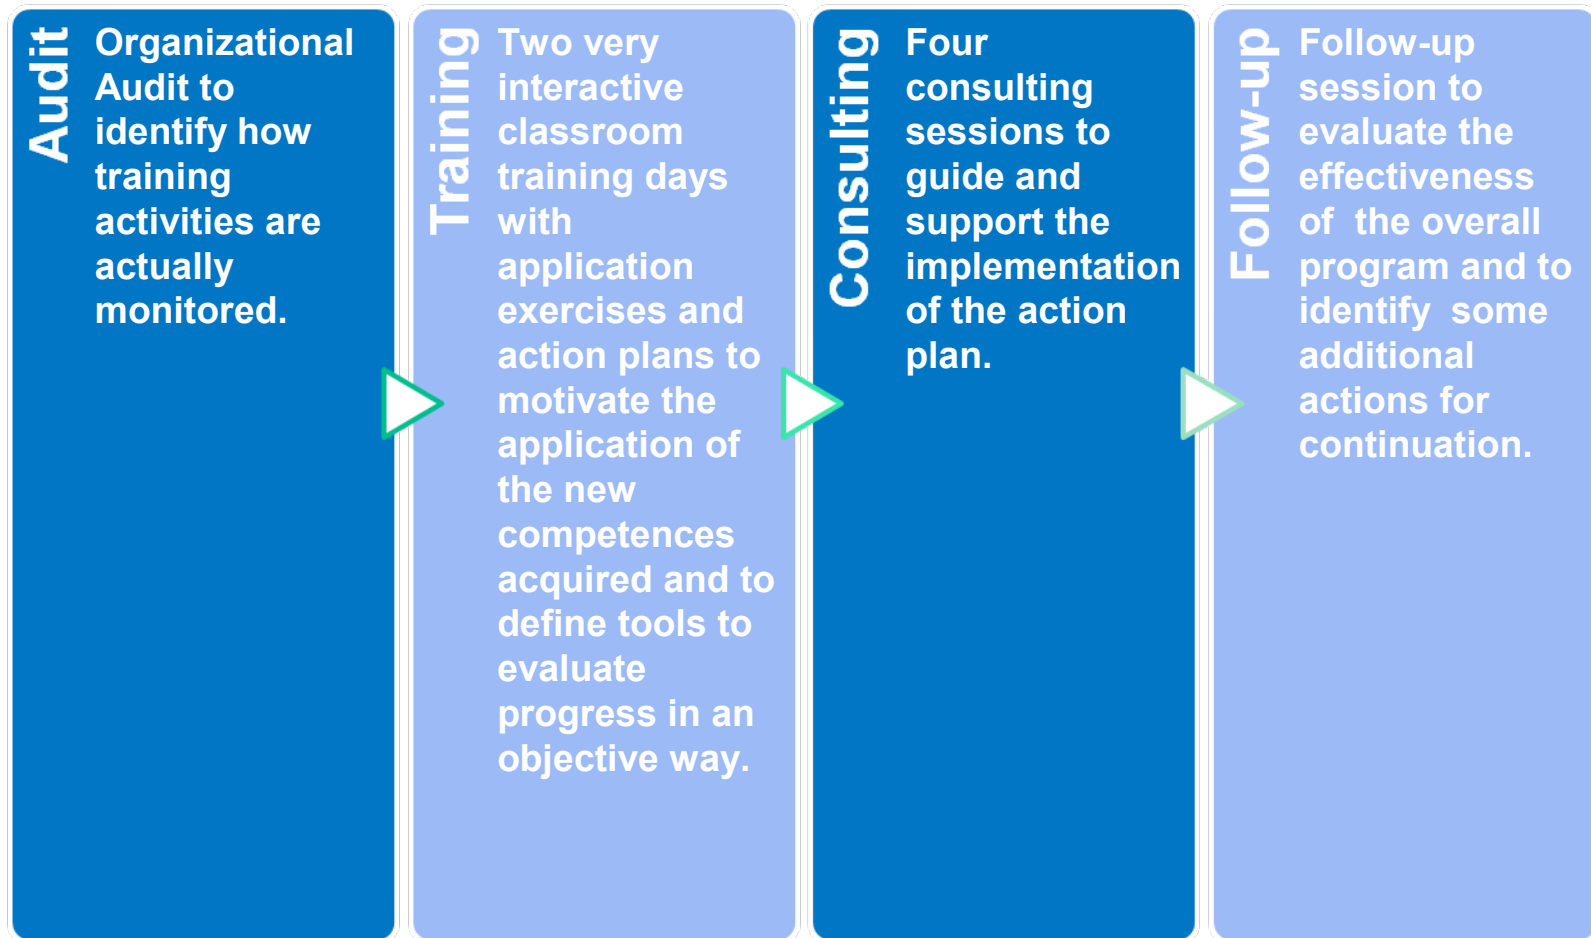

Learning objectives

- ❑ Evaluate training's impact on the organization, at various levels, determining when it is appropriate to use each monitoring level and identifying the most suitable tools
- ❑ Use tools and techniques necessary to monitor and improve training results
- ❑ Identify potential outcomes of training initiatives for the organization that can support the achievement of strategic objectives
- ❑ Follow a step-by-step process for effectively planning, conduct and document training evaluation activities
- ❑ Use a collaborative approach to establish expected and achieved results

Monitoring training effectiveness (2 of 2)
