

## *Training ROI (1 of 2)*

### Learning objectives

- ❑ Describe and apply the methodology for ROI calculation in training
- ❑ Explain how the methodology can be used in different situations within an organization
- ❑ Distinguish between the application of the methodology for “soft skill” (e.g. managerial, communication) and “hard skill” training (e.g. technical skills, operating)

## *Training ROI (2 of 2)*

### Structure of the program
