

## *Training needs analysis, planning & control (1 of 2)*

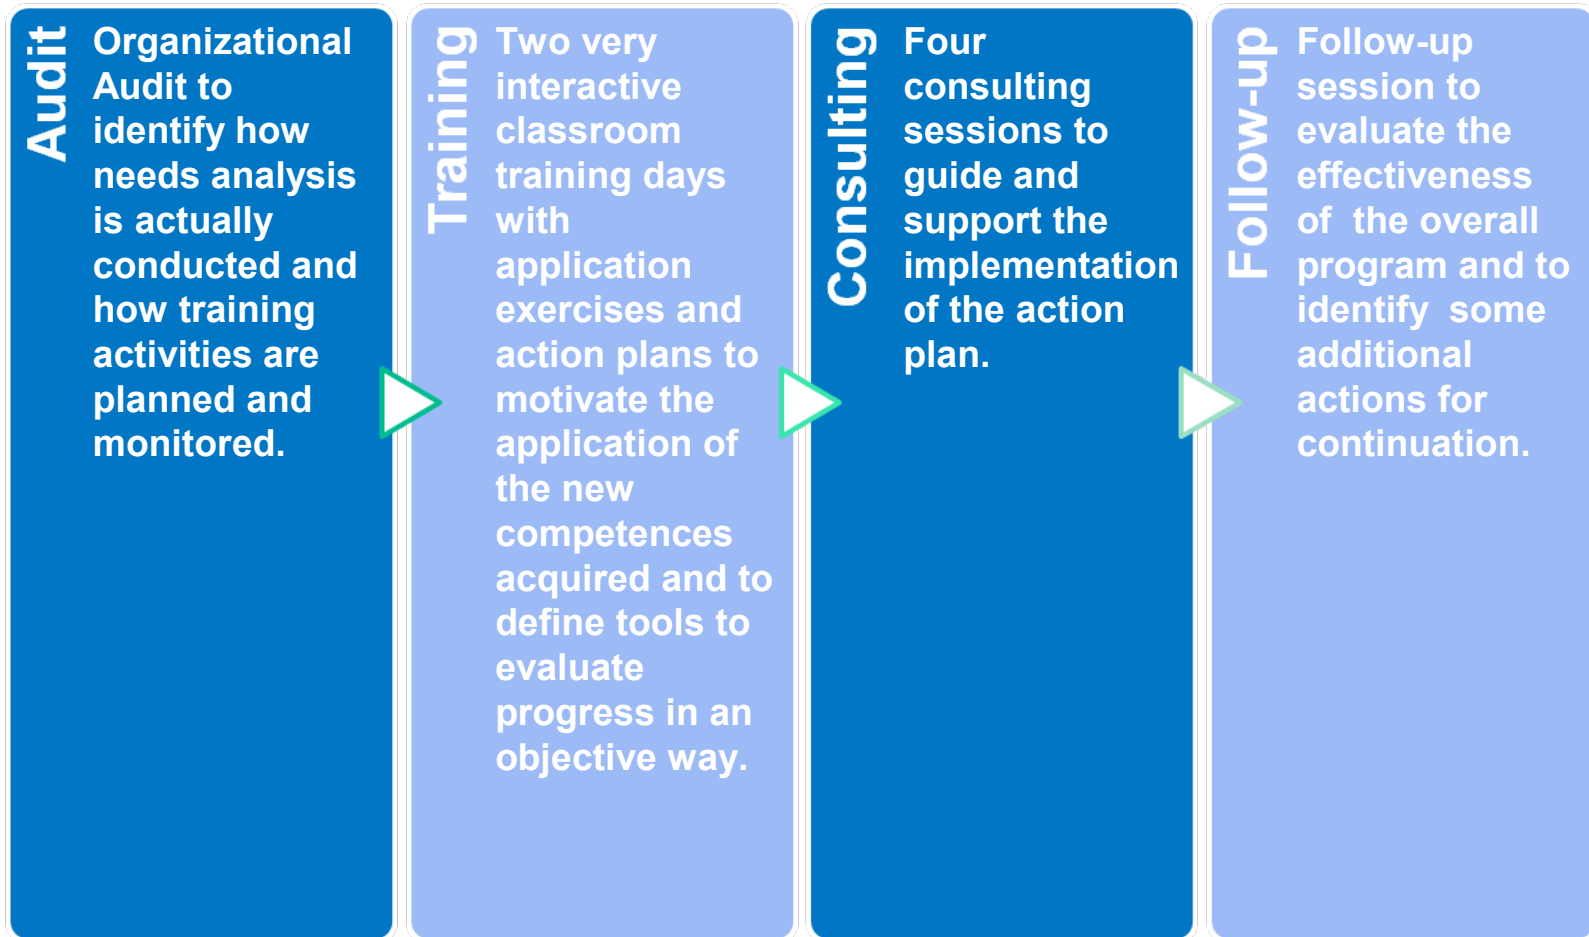

### Learning objectives

- ❑ Understand training planning and budgeting processes within an organizational “end-to-end” cycle
- ❑ Analyze training needs and define tangible and measurable objectives for the training projects
- ❑ Distinguish between training and non-training needs
- ❑ Quantify, justify and manage the estimated budget for short and medium to long term
- ❑ Implement techniques for control, analyze and update plans, budgets and training projects

## *Training needs analysis, planning & control (2 of 2)*
